LEGEND

Roles

- **Journal** — sets the criteria in public; certifies.
- **Author + AI** — works however they like; AI keeps the record.
- **Machine** — verifies; emits findings with pointers, never a decision.
- **Named people** — editors and reviewers; decide, and sign.
- **Limit** — a stated limit of the design, with its response.
- **Neutral** — open, or out of scope.

States

- Built: runs in Mark 1 – tinted fill, solid border
- Specified, not built – white fill, solid border
- Stretch goal – white fill, dashed border

Role is also carried by lane position and by shape, so colour is never the only channel; the states survive a greyscale print.

Shapes

- Artifact or published object
- Process
- Decision - a named person only
- Findings report; publication; certificate
- The research record
- Human judgment
- Terminal state
